Westminster, CO, US | borim@borim.kim | +1 303 842 8710 | borim.kim | linkedin.com/in/borimkim

Lead-level Product Designer specializing in complex enterprise products, AI-powered experiences, and scalable design systems. Known for simplifying complex financial products, building robust product foundations, and leading end-to-end product design by partnering cross-functionally to create intuitive user experiences that drive measurable business outcomes.

Work Experience

Senior Designer (Product Design) , CommuniFi (acquired from S&P Global)

Dec 2024 – Present

Broomfield, CO USA

- Built and governed the company's design system from the ground up, establishing governance, design tokens, and 2,700+ reusable components that became the shared foundation across all products, reducing front-end development time for new modules from approximately 3 weeks to 40 minutes.
- Designed 200+ standalone financial product modules as part of a 300+ module library sold to 15+ client organizations, enabling scalable white-label product customization.
- Led the end-to-end design of the company's first AI-powered Intelligent Advisor platform, enabling advisors and high net worth clients to turn complex financial data into actionable insights and personalized wealth planning through conversational AI, automated financial mapping, and explainable recommendations.
- Integrated AI-assisted workflows using Claude, ChatGPT, and Figma Make to compress research, ideation, and prototyping cycles, enabling faster product validation and more informed product decisions before engineering.
- Influenced product direction by aligning executives, product managers, and engineers around customer needs, business priorities, and technical constraints.
- Mentored junior designers through coaching, critiques, and hands-on feedback, strengthening team-wide design quality, consistency, and adoption of scalable design practices.

UX Designer III , S&P Global

Apr 2021 – Nov 2024

Toronto, ON Canada

- Led the design of data-rich financial products for global institutions including JPMorgan, BMO, HKEX, Reuters, CommSec, and TIAA, building scalable financial experiences such as dashboards, screeners, analyzers, and data visualizations that transformed complex market data into intuitive investment research and decision support.
- Owned the end-to-end design of BMO's options research experience, driving a 45% increase in overall options trades, a 21% increase in multi-leg options trade completions, capturing 78% of all options page views, and reaching an all-time high in user engagement in January 2024 by validating concepts through user interviews, usability testing, and behavioral analytics.
- Designed the HKEX Investor Relations platform, onboarding 156+ listed companies and connecting 2,500+ investor relations professionals, growing the platform to more than 3,400 unique users. Awarded the 2022 Essential Excellence Award for outstanding design impact.

UX Designer , DigitalDigm

Dec 2014 – Jan 2018

Seoul, South Korea

- Led UX design and project delivery for 13+ global clients across finance, automotive, retail, and beauty industries, including Audi, Samsung, Mastercard, and Lancôme, delivering end-to-end digital experiences that strengthened customer engagement across web and mobile platforms.
- Designed the UX for Domino's Korea's ordering experience across web, tablet, and mobile platforms, streamlining ordering and checkout workflows across digital touchpoints. The mobile experience received the 2017 Mobile Awards Korea Grand Prize.

Co-Founder / Designer , Horong

Aug 2014 – Jul 2017

Seoul, South Korea

- Co-founded and designed SA:I, a mobile game, owning all visual, UI, and motion design from concept to launch as a complete zero-to-one product experience.
