Westminster, CO, US | borim@borim.kim | +1 303 842 8710 | borim.kim | linkedin.com/in/borimkim

Senior Product Designer with 8+ years designing and shipping complex web products founded in data and customer insights. Works in an AI-first way, using LLMs and generative design tools daily for ideation, rapid prototyping, research synthesis, and iteration. Designs AI-powered features including conversational interfaces, recommendation systems, and agentic workflows with a nuanced understanding of trust, transparency, and appropriate user control. Thinks in systems across surfaces, states, and user journeys, with deep experience creating and maintaining components across multiple product surfaces in Figma. Driven by improving customer experience and moving core metrics.

Work Experience

Senior Designer (Product Design) , Communify (acquired from S&P Global)

Dec 2024 – Present

Broomfield, CO USA

- Design AI-powered features for an Intelligent Advisor web app, including conversational interfaces, recommendation systems that surface next-best actions, workflow automation for financial mapping, and agentic onboarding flows, designing for trust, transparency, explainability, and appropriate user control.
- Use LLMs and generative design tools including Claude, ChatGPT, and Figma Make daily for ideation, rapid prototyping, research, and iteration, applying editorial judgment to evaluate AI output critically and know when to accept, redirect, or discard a direction.
- Founding design architect post-acquisition; built and maintained the core design system and component libraries across multiple product surfaces in Figma, delivering 2,700+ reusable components with design tokens and governance for scale and consistency.
- Designed 200+ financial modules contributing to a team-wide modular library of 300+ modules sold across 15+ client organizations.
- Think in systems across surfaces, states, and end-to-end journeys, designing for two distinct user types, advisors and their clients, rather than isolated screens.
- Collaborate within a cross-functional squad of PMs and engineers through sprint planning and design QA, closing the gap between spec and ship, and mentor junior designers through feedback and design critique.

UX Designer III , S&P Global

Apr 2021 – Nov 2024

Toronto, ON Canada

- Designed and shipped complex, data-dense web products for global institutions including JPMorgan, BMO, HKEX, Reuters, CommSec, and TIAA, grounding decisions in customer insights and behavioral data.
- Led options trading UX redesign for BMO, driving a 21% increase in multi-leg options trade completions, capturing 78% of all options page views, and reaching an all-time high in user engagement in January 2024.
- Designed the HKEX Investor Relations portal, onboarding 156+ listed companies and connecting 2,500+ investor relations professionals across Hong Kong listed issuers, reaching 3,400+ unique users.
- Designed complex screeners, tables, filters, and data visualizations, pairing systems thinking with a high bar for typography, layout, and microcopy.
- Advocated for users through interviews, usability tests, live experiments, and behavioral analytics, forming hypotheses, validating with prototypes, and iterating on what the signals showed.
- Received the 2022 Essential Excellence Award for outstanding design impact.

UX Designer , Digital Digm

Dec 2014 – Jan 2018

Seoul, South Korea

- Led UX and managed projects for 13+ global clients including Audi, Samsung, and Mastercard, delivering end-to-end interaction and visual design across web and mobile platforms.
- Designed the Domino's Korea ordering system, winner of the 2017 Mobile Awards Korea Grand Prize, optimizing transactional workflows and responsive checkout experiences.

Co-Founder / Designer , Horong

Aug 2014 – Jul 2017

Seoul, South Korea

- Co-founded and designed SA:I, a mobile game, owning all visual, UI, and motion design from concept to launch as a complete zero-to-one product experience.

Education

Seneca College Toronto, ON Canada

May 2019 – Aug 2020

Diploma Interactive Media Design

Sungshin Women's University Seoul, South Korea

Mar 2011 – Feb 2015

BA Industrial Design and BA in Convergence Design

Skills

Core:

Product Design, UX/UI Design, Interaction Design, Visual Design, Systems Thinking, Design Systems, Component Libraries, Data Visualization, Prototyping

Strengths:

AI-Native Design Workflows, AI Design, Agentic Workflows, Conversational Interfaces, Recommendation Systems, Designing for Trust and Explainability, Experimentation and Iteration, Customer Experience, Cross-functional Collaboration

Tools:

Figma, LLMs (Claude, ChatGPT, Figma Make), Sketch, After Effects, Adobe Creative Suite, HTML/CSS(Basic)

Awards

2022 Essential Excellence Award S&P Global Market Intelligence

2017 Mobile Awards Korea Grand Prize Ministry of Science, ICT and KOCCA

2014 Smart Creative Project Selection Korea Institute of Startup and Entrepreneurship Development

2013 Special Award for Idea, Global Game Development Contest KOCCA

2013 Best Research Award, Convergent Consortium Sungshin Women's University

2013 Excellence in Research Award, PiQuest Design Competition KIDP under the Ministry of Knowledge Economy
